Enclosed is our application to redesignate our land from Rural General to Grouped Country Residential.

It is our intention that if approved we will be applying to the Old Man River Regional Services Commission to create 6 additional lots from our property.

These lots will be between 4.8 and 4.9 acres and will be for residential purposes only. There will be no commercial activity allowed. These lots will create small acreages with a little extra room for a pony or a horse, etc.

The lots in question will have access from the existing roads of TWP92A, RGE Rd 251 and 2<sup>nd</sup> St West in the Hamlet of Orton. Driveway locations will be left up to the individual lot owners.

Services to these proposed lots will be provided by Fortis Alberta for electrical power and the primary services will be taken to each individual lot by us. See attached plan from Fortis Alberta. Natural gas and telephone service will be provided by Atco Gas and Telus and will be on an individual basis as per each individual's needs.

Each individual lot will drill their own well and provide septic tank sewage systems in accordance to Alberta Environment standards.

The said proposed lots are within 12 km of the Fort Macleod Fire Department and are already on the school bus route.

Attached to this letter are the following:

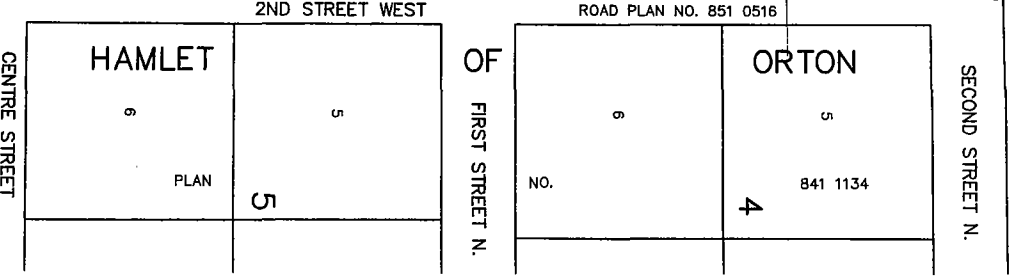

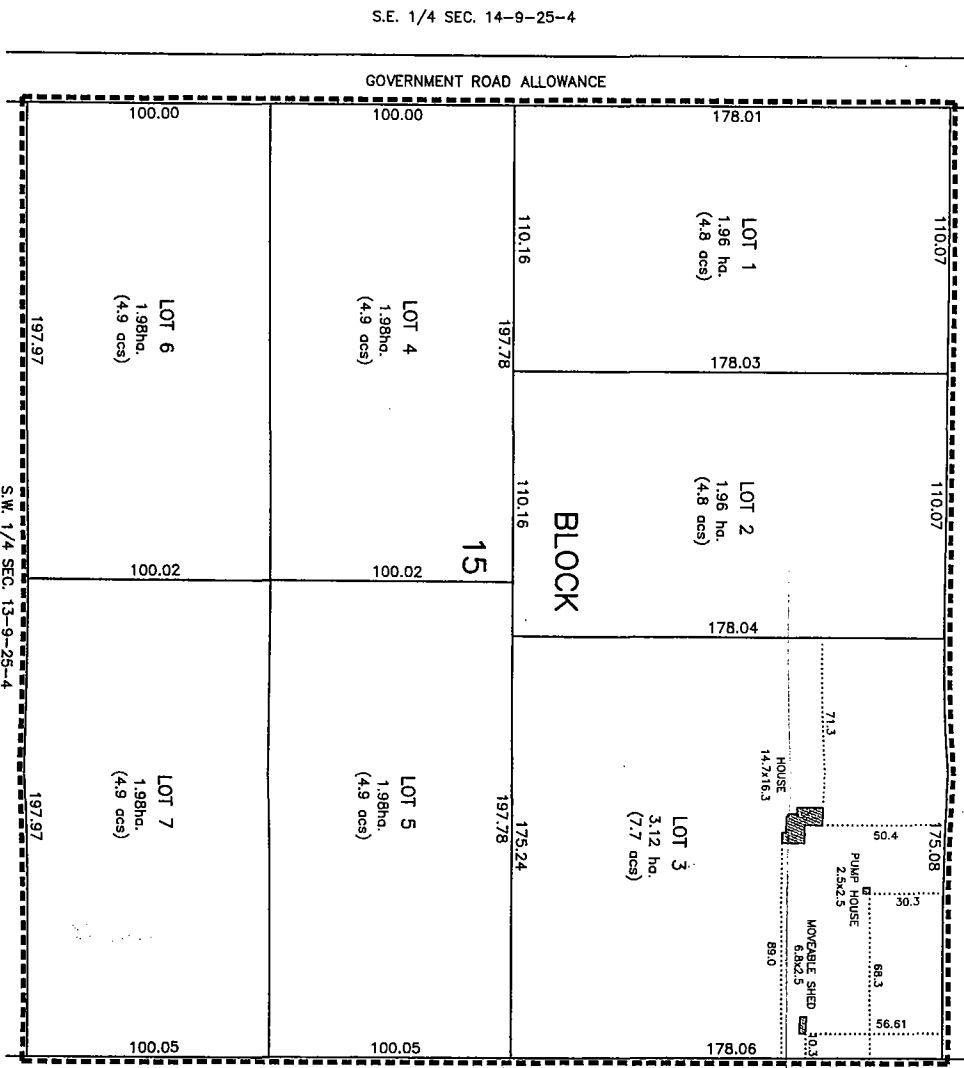

1. Our application for resesignation along with the fee
2. A copy of our Land Title Certificate
3. 2 copies of the A.S.P. as drawn and prepared for us by Brown, Okamura & Associates Ltd.
4. A copy of the water study in accordance with Alberta Environment Sec 23 of the Water Act, along with water sample and soil reports. Percolation and flood plan reports etc are also enclosed. These reports have been completed by Camfield Drilling Services Ltd. And Hasegawa Engineering of Lethbridge.
5. The plan from Fortis Alberta for primary services is also attached.

Thank you  
Alan & Maureen Palmer
